WASHINGTON LETTER.

(From our Regular Correspondent.)

Washington, Sept. 3rd, 1904.

Editor Press:—

Your correspondent procured a few days since, at the Insular Bureau in the city, a copy of the new internal revenue laws which the Philippine Commission has adopted for the purpose of securing a revenue for the government of the Islands under their care. But a few of the phamplets have been received in the United States, and there has been quite a demand for them. The tax falls principally upon alcoholic liquors, tobacco in its various forms, upon saloons and dance halls, circuses and places of amusement, requiring a license the same as in the United States. The usual pains and penalities are provided for false returns and for derelictions on the part of the officers of the internal reveuue. The anti-imperalists seem disposed to find fault with the fact that there is to be any internal tax at all; or that the Filipinos should be obliged to contribute towards the support of any form of government. The President of the Union Pacific Railroad, who has just arrived in this city from Manila, says that in his opinion what the people need out there is good highways, instead of railroads. They should run to all parts of the country thus enabling farmers to get their produce to the market. He took a run over Japan and noticed that that country is abundantly furnished with good roads, and that most of the supplies for the army were carried to the sea board along these routes in preference to using railroads. The Philippine Commission, which has been touring in America for a long time, and is about to depart, speaks of the United States as "the mother county," which is a little curious, and expresses its gratitude for the hospitality received. It also gives the President "the homage of their most respectful consideration." The indications are that the Philippine question will cut but a small figure in the pending campaigh.

The venerable but hearty and handsome Senator Stewart, of Nevada, who announces that he will retire from politics at the end of the 58th Congress, has an office in the Bond building in this city where he keeps in touch with all political and commercial interests in the silver states, as well as in California. He says that his information is that Nevada will go Republican in November. The people of that state have seen a great light—they now recognize that irrigation will do more for them than silver mines, and they thank President Roosevelt for making practical the possibility of irrigation. If the State should go Republican it will be a sad joke for Hon. Clarence D. Van Duzer, its only and Democratic representative, and a pronounced Socialist. He has recently been in Vermont trying to induce the cheese and maple-sugar-makers to vote for Judge Parker. It may be he will have to mend his own fences in Nevada.

It is announced that Dr. Wiley, of pure food fame, of the much talked of borax feeding experiments, of cold storage investigation, etc., will soon go to Italy for a vacation. He thinks it will be perfectly safe to do so. Word comes from Rome that malaria has disappeared from that city with the extermination of the mosquito. And it is also now admitted that one may sleep in Rome with an open window. Dr. Wiley says night air is really the best, as there is less movement of organic matter than in the day time. He is curious to know how the Romans exterminated the mosquito.

DEATH'S DOINGS.

FOLEY.

Patrick Foley, one of our oldest and most highly respected citizens, passed away Friday evening, August 25, 1904, at 8:40 o'clock after an illness of more than a year, the last four months of which he was confined to his bed. He was a victim of Bright's disease and bore his sufferings with Christian fortitude. Realizing that there was no hope of recovery he was reconciled to his fate and stated that he was willing to die but very sorry to part with his beloved family.

Mr. Foley was born in Ireland 64 years ago, and was married in St. Marys on August 23, 1869, to Cecelia McDonough of Emporium, and came to Driftwood in 1874. Their happy union was blessed with eight children, five of whom, to-gether with his widow survive him. The surviving children are Mrs. Kate Sullivan, of Ridgway, Cecelia at home; Mrs. Mary Hogan,, of Emporium, Sister Alphonsus of St. Genevieve's Academy, Harrisburg, and Winnie, at home, all of whom were present at the funeral. Sister Alphonsus was accompanied by Mother Gabriel of the above mentioned institution.

The funeral, which was largely attended, took place Monday morning at 9 o'clock from St. James' church, where Requiem High Mass was celebrated by Rev. Father O'Sullivan, and interment was made in St. James' cemetery. Col. J. O. Brookbank, H E. Colemon, T. J. Riley, Daniel Daley, John Hackett and Michael McMahon acted as pallbearers.

The funeral arrangements were in charge of Mr. B. Egan, of Emporium, and the manner in which every detail was carried out shows that he has no superiors as a funeral director. His handsome hearse was brought to this place overland.

The following relatives and friends from out of town attended the funeral: John Hogan, of Emporium, and Patrick Sullivan, of Ridgway, sons-in-law; Mrs. Thos. McDonough, S. H. Mc Donough and wife, C. C. Ritchie and wife, Mesdames F. Robioson and T. J. Lysett, Miss Annie Welsh and Messrs. P. Normanly, Thos. Cavanaugh, M. Murphy, Hon. F. X. Blumle of Emporium; Mesdames John Considine, M. Dwyer, Thos. Deeghan, Misses Celia Deeghan, Mame, Ella and Annie Mulvihill, and Messrs. John Maloney, Sr., and Junior, Thos. Maloney, John Quinlin and Thos. Sullivan, of Renovo; Michael Hackett, of Lock Haven; Mr. Leary and wife, R. Welsh, Miss Mary Welsh, Mrs. P. Melanhey, of St. Marys.—Driftwood Gazette.

LEADBETTER.

BASEL DONALD LEADBETTER, aged nineteen months, only child of Mr. and Mrs. Matthew J. Leadbetter, died on Saturday, Sept. 3rd, 1904, after a few hours illness, of cholera infantum. Ehe blow to the family is a severe one and can only be realized by those who have suffered in like manner.

The funeral took place from the family residence, "Bond Farm," Monday afternoon Rev. Pugsley of Erie, Pa., an intimate friend of the family officiated, assisted by Revs Twitchell and McCaslin. Interment was made in Newton Cemetery at this place.

$5,500,000 Hotel.

The new Philadelphia fire-proof eighteen story Bellevue-Stratford Hotel will be opened to the public this month. Mr. Baptisti Revelli, who has frequently visited in Emporium, guest of his brother-in-law, Mr. Thomas Gallagher, has been connected with the old Bellevue for years. The Inquirer, while speaking at some length of this new and magnificent hostelry has this to say of Mr. Revelli:

Baptiste Revelli will still be manager of all the large dinners and look after the menu. "Baptiste" is a personal friend of every society man, women and child in the city. He never makes a mistake in a name or a face and to be unknown to "Baptiste" is a hard blow at anyone's claim to sccial repute.

In addition to knowing the men and women of prominence here, Baptiste is a walking social register of New York, Boston, Baltimore, Washington and other cities and he is familiar with most of the titled persons of Europe who visit America or have social connections here. He has the reputation of knowing more about what is needed to make a private dinner or a public banquet pass off successfully than any man in America, and his ideas as regards table decorations have won him world wide fame.

In the new hotel, Claude Benett, who has made hosts of friends during his fifteen years at the old Bellevue, will act as assistant to "Baptiste."

This genial gentleman, Mr. Revelli, has a reputation at stake in managing this great house but will be equal to the emergency.

Oyster Supper.

The ladies of the Presbyterian church will serve an oyster supper in the basement of the new church, Thursday, September 15th at 5:00 p. m.

Roosevelt Licked.

It is now evident that Roosevelt is going to be badly licked this campaign. We have received from The Coupon Press, Washington Heights, Chicago, a book of 95 stickers like a postage stamp only larger, each being a half toneportrait of the President with the title "Four Years More For Teddy." They look very neat on a letter head or envelope and as the idea is rather novel they will no doubt, be licked by thousands of Roosevelt's admirers. Thepublishers will send a sample book to parties sending ten cents and mentioning this paper. This is a special offer to our readers.

Blew Out the Gas.

J. W. Brown, of Mill Hall, Pa., registered at the Commercial Hotel last Saturday night. The stranger evidently blew out the gas when he retired or turned it on after extinguishing the light. When he arose Sunday morning he lighted a match, when the room, filled with gas, ignited, enveloping the room in fire, burning the bed, window casing and wall paper. He fought the fire and succeeded in smothering it, without help. His face, head and hands were severely burned. Dr. Smith dressed his burns.

Killed by Flyer.

A man from Sinnamahoning named Bingham, was killed near Driftwood last Saturday while attempting to get aboard the Flyer. His legs were crushed and he died within an hour.

Card of Thanks.

Editor Press:—

Please convey to all those kind and sympathizing friends who aided us during the illness of our dear son BAZEL; also for many consoling words of comfort in our hour of affliction. Especially do we desire to thank our former Pastor, Rev. W. A. Pugsley, who came from Erie, Pa., in order that that he might officiate at the funeral. Dear friends, words cannot express our feelings and gratitude to you all.

VERMONT'S BIG VOTE.

Solid Senate and House by 32,000.

The Republicans of Vermont surprised the nation on Tuesday by roliing up 32,000 majority, far exceeding the fondest hopes of the party. This is a clear indication of the triumphant election of the Republican national ticket.

BRIEF MENTION.

The best to be had in the clothing line at N. Seger's.

New and substantial pavements are being laid by Landlord Wheeler.

Senator A. E. Patton died suddenly at Curwensville last Monday morning, after a few hours illness.

The best is the kind of clothing that you need for a boy and this you can get at N. Seger's at a reasonable price.

Mrs. John W. Norie of Renovo, was robbed of her railroad ticket and money while visiting at Atlantic City.

FOR RENT.—A furnished bed room for rent, without board. Apply to Mrs. Evans, next to H A. Rarps' store.

A painter employed on the Warner House fell last Monday, sustaining severe injuries. He has resumed work.

The ladies of the Golden Eagle will hold an ice cream social at the home of Mrs. Mark Goss, Saturday evening, Sept. 10. Everybody invited.

Emporium base ball team played at Byrndale last Monday, defeating that team 9 to 2. The next game will be with the Driftwood nine at that place next Monday.

The Independent, whose editor wrote the platform adopted by the late Democratic county convention, now repudiates the responsibility or disowns the child. Another change of base.

As fall approaches you should prepare yourself with warm clothing, and this you can buy at N. Seger's at a wonderful saving in price. His goods always give perfect satisfaction. Drop in and see his mammoth stock.

Labor Day was celebrated at Cameron and from all accounts it was a disgraceful affair. Both of the Cameron hotels were compelled to close up shop. The end is not yet, from all reports.

The silver anniversary convention of the Firemen's Association of the State of Pennsylvania will be held at Erie, October 4, 5, 6 and 7, and will be the most largely attended and interesting convention ever held by the state association.

Hon. E. W. Smiley, chief clerk in the State Senate, is critically ill at his residence at Franklin, Pa., having been stricken with paralysis. His death, which is hourly expected, is a great misfortune to Venango county as well as the entire state. He passed away yesterday.

Sheriff Hemphill and son Kerr took a tumble Monday evening, while enjoying a buggy ride. Meeting one of those terrible machines—E. D. Sizer calls them "outogotohells"—the horse made a plunge down a step embankment. The Sheriff was considerable bruised about shoulder and neck, son escaped, buggy smashed but the horse escaped.

Since a French engineer named Gamond planned a submarine tunnel, in 1857, various projects have been advanced for connecting England with the continent. The latest is the suggestion of Bunau-Varilla, who wants to build a tunnel to within three kilometers of England, and thence a bridge, which England (which has not favored a tunnel), could destroy at any time in case of danger of a foreign invasion, thus rendering the tunnel useless.

Japanese merchants are extending their efforts in the manufacture and export of teas, and it is possible that this may be done somewhat in the spirit of rivalry, but it must be conceded that without the aid of resident foreigners engaged in the tea trade Japanese teas would never have been introduced abroad to any considerable extent; neither would its present foreign export be maintained. The same may be said in the case of mattings and other Japanese exports.

A new equipment for the carrying of rations is now being experimented with at Port Leavenworth, Kans., by the United States troops. It is made of canvas and contains three pocket compartments. It is held by hooks to the belt and fitted to the soldier by shoulder straps designated to destribute the weight equally on the hips. There is a large pocket for cavalry and mounted officers which fits on one side of the saddle, and the two small ones on the other. The tins carry three days' ordinary rations and two extra emergency rations.

As a Bavarian electrician was experimenting on the drying of an ingot mold in the ground by means of the electric current, he noticed that worms issued from the ground near by, writhing as if in pain and seeming in a great hurry to get away. Following this up, he has devised an apparatus to rid soil of worms and noxious insects, by means of which, by planting numerous brass electrodes in the earth at proper intervals, he has succeeded in driving all crawling things from a considerable space in a very brief time. These experiments are expected to result in much practical benefit.

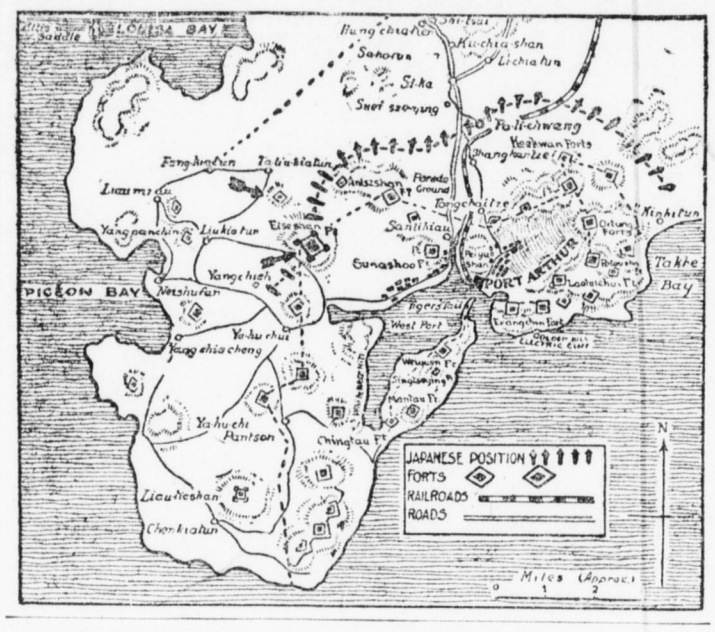
The prefect of the Seine in Paris has fixed the rates for the hire of automobiles, which are furnished with cyclometers and also with Lora kilometric machines. The price during the daytime, whether inside or outside the fortifications, is, for carriages with two places, one kilometer (about three-fifths of a mile), 25 cents; each following kilometer, 10 cents. So two persons can travel six miles for $1.25. Carrigaes with four places are permitted to charge 30 cents for the first kilometer and 12 cents for each following one.

The courtyard of the Savoy hotel, in London, which is part of a recent addition to the establishment, has been paved with rubber, at a cost of $9,733. The courtyard measures 70 by 50 feet. The contractors gave the following information about the pavement to United States Consul General Evans: "The amount of rubber used in the Savoy courtyard is 2,915 square feet two inches thick, and the weight of the rubber is 15¼ pounds a square foot. It is laid on a concrete foundation, finished with cement floating to make it smooth."

In the "Petrified Forest" of Arizona there is a natural bridge, across a narrow canyon, consisting of the petrified, or agatized, trunk of a tree 111 feet in length. The petrified trees in this region are believed to have flourished in the Triassic age. Most of them are allied to the Norfolk island pine (Arucaria) of to-day, but some resemble the red cedar. Prof. Carter thinks the petrification was due to soluble silicates derived from the decomposition of the feldspathic cement found in the sandstone of that region of natural wonders.

Up to within ten years ago all the many millions of paper napkins annually consumed in the United States were imported from Japan or China, but now a large proportion of them are made here. This proportion is constantly increasing, and now American paper napkins are exported to Europe. Some of the napkins produced in this country are printed with designs Japanese in character, but the great bulk are original in every way. They include napkins printed with various flowers, which are reproduced with fidelity to nature.

LOCATION OF ETSESHAN AND ANTESHAN FORTS, REPORTED CAPTURED BY JAPANESE.



War News

BATTLE STILL RAGING.

St. Petersburg, Aug. 31.—The great battle of Liao Yang, which began early Tuesday morning, raged throughout the day, but no further official details beyond two brief telegrams given out in the afternoon have been received by the war office.

The Japanese forces engaged in this battle are believed to number about 200,000 men. Gen. Kuropatkin is known to have six army corps, besides 147 squadrons of cavalry, bringing up the Russian total to about the same number that the Japanese have. How the armies compare with regard to artillery is not definitely known.

Reports from the front credit the Japanese with having about 1,200 guns and many mountain batteries.

Gen. Kuropatkin, in addition to his field batteries, has a number of very heavy guns emplaced at important positions at Liao Yang.

London, Aug. 31.—A dispatch from Liao Yang dated August 30, says:

"The Japanese artillery fire only ceased at 8 o'clock this evening. The casualties have not been ascertained.

"The Third Russian corps repulsed a hot Japanese assault, the Japanese being hurled back by bayonet charges.

"Two Japanese companies which succeeded in occupying a Russian position were mistaken for Russians and annihilated by Japanese artillery fire."

JAPS RESUMED ATTACK.

Liao Yang, Sept. 1.—The second day's battle commenced at dawn. The Russians made repeated baynonet advances on the road directly south of Liao Yang, where the Japanese approached from Sanquaiship and Tao, shelling the positions in the Russian lines until 4 in the afternoon, when the engagement which was general throughout the south and southeast narrowed to the main line. The Japanese advance on the southeast was by way of the Feng Wang Cheng road.

Immediately in front of Chiaofantun the Japanese stubbornly attempted to occupy a round-topped hill, which was literally shaved by Russian shells, making repeated attempts the entire day where apparently it was impossible for anything to live. The cannonading continued from this point to the vicinity of Wangpaoti until evening without apparent advantage to either side.

The Japanese dropped shells within two or three miles of the railroad station and in the plain of Wentshu mountain, which is the most important eminence around Liao Yang, but the Japanese abandoned aggression there on account of the resistance they met. There was cannon fire Tuesday night and this is expected nightly.

Yesterday's developments show that the Russians are prepared for all emergencies. Rain began to fall at noon, gradually transforming the plain into a wilderness through which the wounded, in carts and walking, made their way to the hospitals. Considering the scale of the day's operations the number of Russian wounded is apparently small, while the Japanese losses are believed to be great, especially where they were repulsed on the south road.

RUSSIANS RETREAT.

London, Sept. 2.—This morning's newspapers comment upon an Associated Press dispatch from Mukden, saying that the train service between Mukden and Liao Yang is interrupted and that the roads are impassable, as the most important news from the scene of hostilities in the far east and say that there is only one meaning to it—that the Japanese have seized the railway between Liao Yang and Mukden.

Correspondents of the Daily Chronicle and the Daily Mail assert that the Japanese occupied Liao Yang on Thursday.

There is no official confirmation of these statements, but the latest official dispatch to the Japanese legation here reports the capture of the heights southwest of Liao Yang, at dawn Thursday. This dispatch adds: "Thereupon the enemy south of Liao Yang commenced to retreat. Our armies are now pursuing him."

Tokio, Sept. 2.—Tokio rings with shouts and cheers for the victory at Liao Yang. The details of Thursday's fighting are scanty. It is only known that at dawn Gen. Oku's army was hurled against the Russian right center on the southern line and that the Russians were forced to abandon their positions and retreat.

The question of the occupation of Liao Yang by the Japanese is in doubt. The official dispatches do not make mention of such occupation, but it is assumed that the Russians are withdrawing through Liao Yang and that the Japanese possibly occupied it late yesterday.

The Japanese casualties since August 29 are officially estimated at 10,000.

St. Petersburg, Sept. 2.—The news of the evacuation of Liao Yang and the withdrawal of the Russian army to the right bank of the Taitse river reached only a small section of the people of St. Petersburg at a late hour and caused intense excitement and disappointment.

The following statement was obtained from the war office at 10 o'clock Thursday night:

"Gen. Kuroki's army crossed in force to the right bank of the Taitse river and it therefore became necessary for the Russians to be in a position to repel a blow in this direction.

"In view of this development in the operations Gen. Kuropatkin decided to abandon his positions on the left bank and to concentrate his whole army on the other side of the river. This position is the strongest both in character and in site. The great fight will be decided there.

"By withdrawing to this position the Russian army avoids the danger of being divided by the river."

Promoter McCauley is Arrested.

New York, Aug. 31.—Thomas N. McCauley, organizer and ex-president of the alleged bankrupt international Mercantile Agency, of this city, which is now in the hands of a receiver, was arrested here Tuesday upon request of Hamilton, Ont., authorities, who informed the local officials that McCauley was wanted there on the charge of larceny of $4,500, made by C. S. Wilcox, of that city, a former stockholder in the Mercantile Agency. McCauley says that his arrest is the result of spite on the part of a present official of the company.

Ordered a General Strike.

Chicago, Sept. 1.—Famine in meat is declared by the strikers to be the probable result of their new move in the strike against the packers. Orders have been issued for a general strike of all butcher workmen throughout the country. They are expected to go out to-day. The order will affect about 2,000 men in Chicago, including the independent plants in many other cities. In addition to the stock handlers, 125 special policemen and nearly 400 pen cleaners, drivers of refuse wagons and laborers employed by the Union Stock Yards Co. quit work yesterday.

Stormy Scenes in a Convention.

New York, Sept. 1.—Much excitement attended the discussion of a resolution to increase the membership of the executive committee at the convention of the United Irish League of America here yesterday. The proposition was to increase the committee from 50 to 100, and the trouble began when John F. Ryan, of Philadelphia, said that New York should not have two representatives on the executive committee when Boston and other cities had given more to the fund than had New York. After great disorder the proposed amendment was defeated.

Bryan Offers His Services.

New York, Sept. 1. — Secretary Woodson, of the democratic national committee, has received a letter from William J. Bryan in which Mr. Bryan says he will be at the disposal of the democratic committee for campaign purposes during October. Mr. Bryan indicates that he would prefer speaking in the west, mostly in Indiana.

A Princess Escapes from Her Keepers

Berlin, Sept. 1.—Princess Louise of Coburg, daughter of the king of Belgium, whose relations with Keglevich Mattastich, a lieutenant in the Austrian army, caused great scandal in royal circles seven years ago and who has been since kept under the closest restraint, has vanished from Bad Elster, where she had been taking the cure. It is presumed that she is in the company of Mattisch. The escape of the princess was accomplished in a romantic manner. Ladders and an automobile were brought into play to effect her release from the hotel.

SITUATION IS CRITICAL.

Effort to Settle Engineers' Wage Scale Dispute Was Fruitless.

New York, Sept. 2.—Another fruitless effort to settle the threatened trouble between the Interborough Rapid Transit Co. and the employes was made Thursday by committees representing both interests. At the conclusion of the meeting the announcement was made that no agreement had been reached.

Mr. Belmont was of the opinion that the situation would be adjusted without serious trouble.

Assistant Grand President Stone, of the Brotherhood of Locomotive Engineers, took a more pessimistic view.

"The situation is critical," said he.

Speaking of the conference Mr. Belmont said: "We were not able to agree, but the committee is considering a proposition and another conference will be held at which I hope to have the trouble adjusted. I do not believe there will be any strike and I think everything will come out all right in the end."

Mr. Stone later made a public statement in which he said: "The electric engineers of the Interborough railroad asked that the wage scale and hours of labor now in effect on the Interborough (namely $3 for nine hours—the company only offers $3 for ten hours) be extended to the subway operated by the same corporation. The statement that we are asking for an increase in wages is wrong.

"The claim of the company that they can get all the motormen they want at a cheaper rate for longer hours is perhaps true in some sense, but what kind of motormen will they be? I have no doubt if they adopted a still lower rate they could still get men."

Mr. Stone pointed out that it was the intention of the company to put in a service in the subway that is faster than any in the United States.

He declared that it was all mere talk to compare these surface motormen who handle a light car weighing 20 tons running at a speed of ten or 15 miles per hour, with one of the subway trains of 300 tons running at 45 or 50 miles per hour and say the work is the same and that the surface men can go into the subway and do the work.

The United States Leads.

St. Louis, Sept. 2.—The report just issued by W. J. Semeleroth, of St. Louis, chief secretary for the world's fourth Sunday-school convention, held at Perusalem, in April of this year, shows a total of 260,905 Protestant Sabbath schools, 2,414,757 teachers and 23,442,998 scholars in Europe, Asia, Africa, North and South America and the islands of the seas. The United States leads with 139,817 Sunday-schools, 1,419,807 teachers and 11,493,591 scholars. England and Wales come next with a total membership of little more than half this number, while Greece, the lowest on the list, has only four schools, seven teachers and 180 scholars.

An Ocean Tragedy.

St. Johns, N. F., Sept. 2.—The Canadian schooner Troop, from the Grand Banks fishing grounds, reports that on August 20 Capt. Zimmermann, of the fishing schooner Coleraine, reported having spoken a French barkentine, name unknown, 170 miles off Cape Race, with only three men left out of a crew of 34, the others having been lost while fishing with their dories. The French captain begged Capt. Zimmermann to board his vessel and help him to reach this port, but the weather was too stormy to permit compliance with this request, and it is feared that the French vessel and the remainder of her crew have perished.

Arrest of a Labor Leader.

Fort Madison, Ia., Sept. 2.—L. C. Neyer, vice president of the Machinists' International union, was brought here Thursday from Dubuque, Ia., by a special officer of the Atchison, Topeka & Santa Fe railroad, who arrested Neyer on a charge of assault with intent to kill, the arrest being the result of an alleged attack by Neyer on strike breakers here about a month ago. A warrant has also been issued for Arthur E. Ireland, organizer for the Federation of Labor, on the same charge.

Stretched Hemp.

Clearfield, Pa., Sept. 2. — Henry Fitch,, colored, was hanged here Thursday for the murder of John Williamson on September 29, 1903. Fitch attempted to rob Williamson, who resisted and was shot to death. Recently Fitch made a confession in which he claimed to have killed a negro at Red Star, W. Va., shot a man at East Liverpool, O., and murderously assaulted another at Coraopolis, Pa.

New Mint Opened.

Denver, Col., Sept. 2.—The new United States mint in this city was opened yesterday with a presidential salute of 21 guns and raising of the American flag over the building by George E. Roberts, director of the mint. The mint will not begin coinage until July 1, 1905.

Struck for More Pay.

Philadelphia, Sept. 2.—Seven hundred tinsmiths and sheet metal workers went on a strike here yesterday for an advance of five cents a hour. Formerly the men were paid at the rate of 37½ cents an hour. They are asking for 42½ cents an hour, the workday to remain at eight hours.

Children Were Abducted.

Ogdensburg, N. Y., Sept. 2.—Luella and Lillie Widdis, aged 13 and 11 years, children of Frederick Widdis, of Brockville, Ont., who were abducted two weeks ago, have been found in a vacant house near Hammond, N. Y. Luella says that Tony Raggasino, an Italian friend of the family, took them from home at night while their father slept, crossed the St. Lawrence with them, made them walk 11 miles back into the country, and left them in the vacant house while he returned to Brockville for their belongings. Raggasino has been arrested.

THE BIBLE WAS MUCH USED

There Was No Baby Chair in the House and It Served a Good Purpose.

A minister of one of the leading congregations of this city was recently making a call on one of the prominent members of his flock and was greeted at the door by the five-year-old daughter of the house, who was doing the honors as hostess in the absence of her mother, relates the Philadelphia Press. Spying a well-worn family Bible near at hand, the minister commented on the fact that there must be a good father in the house, which contained proof of having used the Bible to so great an extent.

"Oh, yes," said the child, "papa has us on the Bible three times a day."

"Indeed?" replied the parson. "How edifying. And, pray, what times does your good father call upon this grand volumne?"

"Always at meal times," answered the radiant daughter. "You know, we never had a baby chair in the house, so pa just sits the Bible on a dining-room chair and that makes it just high enough for us children My baby brother Jim sat on it this morning. We all had our turn at it."

New Tourist Sleeping Car Service to California.

COULDN'T LIFT TEN POUNDS.

Doan's Kidney Pills Brought Strength and Health to the Sufferer, Making Him Feel Twenty-Five Years Younger.

J. B. Corton, farmer and lumberman, of Deppe, N. C., says: "I suffered for years with my back. It was so bad that I could not walk any distance nor even ride in easy buggy. I do not believe I could have raised ten pounds of weight from the ground, the pain was so severe. This was my condition when I began using Doan's Kidney Pills. They quickly relieved me and now I am never troubled as I was. My back is strong and I can walk or ride a long distance and feel just as strong as I did twenty-five years ago. I think so much of Doan's Kidney Pills that I have given a supply of the remedy to some of my neighbors and they have also found good results. If you can sift anything from this rambling note that will be of any service to you, or to anyone suffering from kidney trouble, you are at liberty to do so."

TRAINS COLLIDE

A RAILWAY HORROR AT RICHMOND, QUEBEC.

Cars Telescoped and Locomotives Demolished—Nine People Killed and Twenty-three Injured

Montreal, Sept. 1.—Nine people were killed and 23 others injured in a head-on collision on the Grand Trunk railway near Richmond, Que., yesterday. The trains involved were a special excursion from Montreal bound for Sherbrooke and passenger train No. 5, running between Island Pond, Vt., and Montreal. The collision, it is claimed, was due to neglect of orders on the part of the train crew of the excursion train, which left Richmond without awaiting the arrival of the passenger train.

The excursion train was running as the first section of the regular Grand Trunk Portland express, which usually crosses the Island Pond train at Richmond and was running on its time. This makes it all the more inexplicable why Conductor Atkinson, in charge of the excursion train, did not wait to make the usual crossing. Atkinson disappeared shortly after the wreck occurred.

The excursion train, made up of ten coaches and a baggage car, carried about 1,000 persons bound for the exhibition at Sherbrooke. The Island Pond train was composed of five coaches and a baggage car and had only a small number of passengers. The excursion train had barely cleared the Richmond yard when on rounding a curve it met the Island Pond train running at a high rate of speed. Both engineers reversed and with their firemen jumped, escaping with minor injuries. The shock of the collision was plainly heard in Richmond, more than a mile away.

Both engines were locked together. The baggage car of the excursion train was picked up and dropped on top of the car following it, a smoker, and it was in these two cars that the greater number of fatalities occurred.

Among the killed is J. B. Blanchet, who was elected to represent St. Hyacinthe in the Canadian house of commons last spring.

FOR CONTEMPT OF COURT.

The Retail Druggists' Association Is Fined $2,000 and Its Secretary $500.

Chicago, Sept. 1.—Twenty-five hundred retail druggists in the United States were yesterday declared guilty of contempt of court by Judge Dunne, of the circuit court, and the National Association of Retail Druggists, of which they are members, was fined $2,000, while Thomas V. Wooten, secretary of the organization, was fined $500. The cases against five wholesale druggists of Chicago, also charged with contempt, were continued until the fall term of court, when it will be necessary for them to take additional proof into court to purge them of the contempt charges.

The injunction under which the Druggists' association was fined was secured by Isaac Platt, a retail druggist of Chicago, in November, 1902, and restrained them from interfering in any manner with the securing of supplies by Platt, who had incurred the association's displeasure because he would not join it.

"Platt has been deprived of the right in this community to sell goods," Judge Dunne said in rendering his decision. "Nothing can be more clear. It is a combination that has prevented him from securing supplies and the court enjoined the defendants in this case from carrying out their plan to prevent Platt from obtaining goods."

Platt charges that he has been blacklisted and boycotted by the association and that through its influence all the wholesale houses in Chicago have refused to sell him supplies. The association made its defence upon the plea that Platt was attempting to sell the goods at wholesale, thus cutting the prices. Platt has fought the association for two years in the courts.

A Successful Holdup.

Cheyenne, Wyo., Sept. 1.—Upon the arrival of the Oregon express on the Oregon Short Line at Kemmerer, Wyo., at 2 o'clock Wednesday morning, four men stepped out from the shadow of a building near the depot and as soon as the door of the express car was opened by the messenger, two of them forced the messenger to throw up his hands, while the two others took charge of the station agent. A package containing $900 which had been sent to pay off the employes of the Kemmerer Coal Co. was taken. A package containing $13,000 was not disturbed.

Report of Slocum Relief Committee.

New York, Sept. 1.—The report of the committee for relief of survivors of the General Slocum disaster shows that 958 bodies have been recovered and that $109,543 was collected and expended. Of 590 families who lost one or more members by the disaster 437 received aid and provision was made for the permanent care of many of these. Twenty thousand dollars has been put aside for this purpose. One hundred and twenty men lost their entire families in the disaster and in 12 families 27 children were left orphans.

Masked Man Shot at a Woman.

Danbury, Conn., Sept. 1.—Miss F. F. Spencer, whose father was robbed of $5,000 by highwaymen two weeks ago, was the victim of a murderous assault near her home yesterday. The family received letters warning them that they would be killed if further efforts were made to capture the assailants. Yesterday a masked man fired three shots at Miss Spencer as she was driving. One of the shots set her dress on fire. She returned the shots and her assailant fled. Bloodhounds have been solicited to aid in the search for the assailants.

FAMOUS OLYMPIC GAMES.

Athletes of Foreign Nations Meet Those from America at St. Louis.

St. Lous, Aug. 31.—The Olympic Marathon race, the third foot race contest of the kind ever held and the first ever held on American soil, participated in by 31 men classed among the fleetest runners of the world, was won yesterday by Thomas J. Hicks, of Cambridge, Mass., who is the first American to win this event celebrated in the revival of Olympic games.

St. Lous, Sept. 1.—Again have the athletes competing in the track and field events of the Louisiana Purchase exposition revival of the Olympic games demonstrated that they are the peers of any previous aggregation of international character.

H. L. Hillman, of the New York Athletic club, ran the 400-meter hurdle in 3 2-5 seconds under the Olympic and world's record.

The 20-meter run brought out a field of record breakers. Archie Hahn, of the Milwaukee A. C., won the first heat in the record time of 22 1-5 seconds. He fought the distance with W. J. Cartmill, of Louisville, Ky., and only won by inches. The second heat was a trfle slower, but Hogenson was not pushed. The final (the distance by American measurement of the 200 meters being 2:18.73 yards) resulted in the lowering of the Olympic record by three-fifths of a second. Hahn won the event.

Pericles Kakousis, of Athens, Greece, had everything his own way in lifting the bar bell.

Kakousis then went after the Olympic record, which is also regarded as the world's record. He first lifted 200 pounds and then had the weight adjusted to 246 pounds, four ounces more than the record made by the Danish athlete, V. Jensen, at the Athens Olympiad in 1896. His first attempt was successful.

Ralph W. Rose, of the Chicago Athletic association, played ducks and drakes with the records in the 16-pound shot put. His first essay buried the Olympic record and came within two inches of the world's record. He tried twice more before he succeeded in smashing the latter with a put of 48 feet 7 inches.

International tug of war, teams of five men, weight unlimited. Milwaukee A. C. defeated the Boer team. St. Louis team No. 2 defeated the Pan-Hellenic Athletic club, of Athens, Greece. Milwaukee defeated St. Louis team No. 1. The New York A. C. team defeated St. Louis team No. 2.

St. Louis, Sept. 2.—American athletes held the center of the stage yesterday in the Olympic games and to their pluck belongs the credit for creating one world's record and three Olympic records.

One of the greatest races was the 800-meter run. The distance in American measure is 874.89 yards. Entered in the race were representatives of the United States, Germany, Canada and New Zealand, but the first four places were claimed by men running under the colors of Chicago, New York and Milwaukee athletic clubs.

Not only did James D. Lightbody, of the Chicago Athletic association, lower the Olympic record by 5 2-5 seconds, but he ran the legs off the German representative, who collapsed at the finish.

The discus throw attracted little attention until the announcers called the result of M. J. Sheridan's first throw. It came within a few inches of equalling the world's record, made by himself, of 127 feet 9½ inches.

When Sheridan again stepped into the seven-foot ring the crowd awaited almost breathlessly while the steel discus whirled through the air. The measurers raced to the spot where the discus had buried itself 130 feet 9 inches from the starting point.

The result of the measurement was greeted with cheers, but the demonstration was as nothing to that which followed the next throw, 132 feet even.

The result of the 56-pound event proved a disappointment. It was expected that Flanagan, of the Greater New York Irish Athletic association, would break the Olympic record and possibly the world's record. The New Yorker was bested by a foot by E. Desmarteau, of Montreal, Canada. The latter's best throw was 34 feet 4 inches,

SUICIDED IN JAIL.

Man Arrested in Connection with the Theft from a Cathedral of a Priceless Cope Ends His Existence.

Ascoli, Italy, Aug. 30.—The photographer Rocchiggiani, who was arrested on August 17 in connection with the theft from the cathedral of Ascoli of a priceless cope which was afterwards bought by J. Pierpont Morgan, of New York, committed suicide Monday by hanging himself to a bar in his cell. He had refused nourishment for several days.

The cope, which was very ancient and considered priceless, was stolen from the cathedral in 1902. It mysteriously disappeared while repairs were being made to the cathedral, and though the government took measures for its recovery, the efforts were unsuccessful.

One Hundred People Cremated.

Manila, Aug. 30.—The city of Binang, in Laguna province, island of Luzon, has been destroyed by fire. One hundred persons perished in the flames and 5,000 were rendered homeless. The loss is estimated at $200,000. The government is furnishing shelter and food to the people made destitute by the fire.

Parker's Successor Is Appointed.

New York, Sept. 2.—Judge Edgar M. Cullen, of Brooklyn, was yesterday appointed chief judge of the court of appeals by Gov. Odell, succeeding Judge Alton B. Parker, resigned. Judge Cullen is a democrat and is now serving as an additional judge of the court of appeals, a position to which he was designated by Roosevelt when he was governor of New York. It has been settled by the republican managers that Judge Cullen will be nominated by the republican party for the position to which he was yesterday appointed.

The "Vindication" Cry.

It must be exceedingly discouraging to the Independent to perceive, as its acuteness must necessarily perceive, that its persistent attempts to awaken enthusiasm for Mr. Blumle by raising the cry for vindication, are meeting with such, utter want of success. The Independent has attempted a task which an abler and more resourceful organ than itself would find impossible to perform. It is butting up against the logic of facts, and is finding that it cannot move them. Let us briefly analyze some of these facts. What we shall say is not prompted by any spirit of animosity or discourtesy to Mr. Blumle. When, however, a man comes before the people asking their suffrages, and when his platform and party organ demand his election on the ground of vindicating a wrong, it is the privilege and also the duty of voters to look at the facts as they are. What we shall say merely voices the general sentiment of the people of the county.

The Independent is ordinarily very acute, but sometimes it does fatuous things. Of all the fatuous things that it has ever done, the most fatuous was its attempt to serve Mr. Blumle by publishing in its columns the bulk of the testimony taken before the legislative committee of investigation two years ago. The Independent thought that by publishing this testimony it would be made to appear that Mr. Mullin was as deep in the mud as was Mr. Blumle in the mire, and that therefore it was an act of injustice to give Mr. Blumle's seat to Mr. Mullin. It is needless to say that the PRESS maintains the justice of the seating of Mr. Mullin; but the point which we are wishing to emphasize in this connection is the fact that the Independent itself published testimony which shows plainly that the canvass conducted by Mr. Blumle has marked by corrupt and illegal methods. The Independent was willing to publish testimony which besmirched Mr. Blumle's canvass, in the eagerness of its desire to do something, if possible, to injure Mr. Mullin.

The practical net result of the publication of this testimony has been to convince nearly every one that Mr. Blumle, for his part, conducted a corrupt and illegal campaign. Even those whose strong partisanship, or those whose general distrust of the manner in which legislative contests are often decided, has led them to disapprove of the seating of Mr. Mullin, will not for a moment contend that Mr. Blumle conducted an immaculate campaign, or anything approaching to it. Yet to read what the Independent is printing these days, one would suppose that Mr. Blumle has always been absolutely free from the slightest taint of political corruption, that his canvasses have been a model of all that the most exacting political reformer could ask. The public know that all this is simply not true. The public, even that portion of it which is not friendly to Mr. Mullin, are aware of the character of the methods used by Mr. Blumle in his campaigns. The public know that Mr. Blumle, using such methods, has twice enjoyed the honors and emoluments of the office of Assemblyman. The general sentiment consequently is that Mr. Blumle has fared exceedingly well, and that it is asking too much to demand a third term merely for the sake of "vindication." Cameron county will think twice and three times before it will turn down a man of the character of Mr. Josiah Howard merely for the sake of "vindicating" a man whose methods of campaigning are so open to criticism as have been those of Mr. Blumle.

The Democratic Conception of Liberty

In our article commending Mr. Howard's speech of acceptance we remarked incidentally that "the conception of liberty which the Democratic party has always cherished is that of mere absence of restraint. This statement has given offense to one of the Independent's assistant editors because it was not properly understood. We did not say that the Democratic party desires the absolute realization of its conception of liberty, in other words that it aims to abolish all forms of restraint. A good Democrat is as law abiding as is a good Republican; and we have no doubt that if Parker should be elected, peace and order will be maintained.

Thomas Jefferson, while recognizing the necessity of government for the maintenance of order, nevertheless stood forth as the champion of liberty rather than of law. There is greater danger, he thought, of law everriding liberty than there is of liberty overturning law. He therefore set himself to keep the functions of government down to the lowest possible notch consistent with the demands of public order. Within certain limits his principle was that the less of government there is the greater liberty there is. He regarded government in the light of a restraint upon liberty, necessary to some extent, indeed, but still a restraint. No one can understand the principles which underlie the history of the Democratic party without grasping this fundamental fact, that the Democratic party—the party of Jefferson, not of Bryan—stands for the narrowest practicable limitations of the powers and functions of government.

EDITORIAL MENTION.

The man who has not patriotism enough to give up a half day for the sake of voting without being paid for his time, is a contemptible specimen of humankind and is unworthy of the right to vote.

The man whose political support can be purchased for half a dollar with which to buy drinks is as low down in the scale of humanity as he can go. There are a few of his kind in the county and they are not going to vote for Howard or for Bardwell.

The Independent has come out flat-footed against the evil influences of the saloon in social life. This is commendable, but it would be more to the point just at present were it to come out flat-footed against the evil influences of the saloon in county politics.

Mr. Blumle is either not serious in professing to be a Jeffersonian Democrat or else he is ignorant of the very A. B. C. of Jeffersonian Democracy. It was the policy of Jefferson to keep the functions of government down to the lowest possible notch, interfering to the least possible extent with the private affairs of the people. Such a socialistic measure as Mr. Blumle introduced into the last legislature at Harrisburg would have been denounced and repudiated by Thomas Jefferson as utterly out of keeping with the true functions of government as understood by him. Between the reader and ourselves and our in kbottle, we believe that some naughty reporters from Philadelphia jollied Mr. Blumle into introducing his notorious bill.

A Continual Strain.

Many men and women are consantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and dispondency. They cannot, as a rule, get ride of this "continual stain," but they can remedy its health detroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual stain." Trial bottle of August Flower, 25c; regular size, 75. At all druggists.

Emergency Medicines.

It is a good convenience to have at hand reliable remedies for use in cases of accident and for slight injuries and ailments. A good liniment and one that is fast becoming a favorite, if not a household necessity is Chamberlain's Pain Balm. By applying it promptly to a cut, bruise or burn it allays the pain and causes the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a sprain may be treated before inflamation sets in, which insures a quick recovery. For sale by L. Taggart.

Rheumatism Neuralgia

To these two diseases probably mankind owes more suffering than to all others combined. While neither is ordinarily perilous, nevertheless Rheumatism lays the foundation for heart disease and Neuralgia leads to the morphine and opium habits. No matter how mild the case may be these troubles should never be neglected. A reliable remedy applied promptly will prevent endless pain and many sleepless nights.

Hamlins WIZARD OIL

is such a remedy. Its use will bring instant relief in all cases and final cure in the great majority. Hamlins Wizard Oil has cured thousands of people from all parts of the world. It can do the same for you.

Letter to Emporium Machine Co.
Emporium, Pa.

Dear Sirs: Mr.———President of a cotton-mill at Union, S. C.,—he don't want to see his name in print—had two offers of 500 gallons of paint; $1.30 and $1.25. Took the $1.25; and got skinned. He'd have got three-quarters skinned if he'd taken the other.

The $1.30 was full gallon; the $1.25 was 18 per cent short. The full-measure paint was adulterated 40 per cent. the short-measure paint was adulterated 45 per cent. besides benzine in the oil, don't know how much.

Devoe lead-and-zinc wasn't sold in the town then.

It don't pay to monkey with paint.

Devoe costs less than any of 'em; not by the gallon, of course; by the house and year. That's how to reckon it. Go by the name.

Yours truly,

The Sunday School Convention—Date Changed.

The Annual Convention of the County Sunday School Association will be held in the First Baptist church on Thursday evening and all day Friday of this week. On account of the inability of one of the speakers to be present on the date previously announced, the date was changed from the 5th and 6th to the 8th and 9th.

City of Contradictions.

Lassa is a city of magnificent buildings, where the streets are never repaired and, except for a slight cleaning in January and March of the Tibetan calendar, are dreadfully dirty. Everywhere people are laden with rich ornaments, but unwashed as Caverley's organ grinder. A vast Buddhist temple stands in the center of the city, and it is encircled by a street lined with shops and roadside venders. Both men and women are enthusiastic traders, and especially striking is the sight of Buddhist priests selling divers merchandise at roadside stalls, with the sleeves of their clerical robes rolled high up their arms.—London Globe.

The "Inside Inn."

The visitor to the world's fair walked timidly up to the clerk at the hotel desk and asked:

"Excuse me sir; is this the Inside Inn? And, if so, is the proprietor of the Inside Inn in?"

"Yes" replied the clerk, with a far away look in his eyes, "this is the Inside Inn, and you will find the proprietor of the Inside Inn outside by the inn's side. He has been keeping the Inside Inn for several weeks. He tells me that once when he took an ocean trip he couldn't keep his inside in, and he didn't intend it to get outside."

"All right," said the guest, "if this is the Inside Inn we want to see its inside as well as its outside, before we look inside any of the outside inns. If we like the Inside Inn's inside and outside better than we like the outside inn's outside and inside we may bring our things from outside inside and stop inside the Inside Inn. Because we won't have to go from the inside outside or come back from the outside inside when we're seeing the fair, but can remain inside or outside the Inside Inn, it being the only inn inside the grounds. The other ones are on the outside and furnish no more comforts for the guests' inside or outside than does the Inside Inn with exhibits close outside at the inn's side—that is, the Inside Inn's side, In—"

But the clerk had fainted and fallen inside the Inside Inn's desk and bellboys were hurrying with water for his outside and brandy for his inside, though in their excitement they got that which was meant for his inside outside and that which was for his outside inside.—Baltimore American.

FAIRBANKS OPENS CAMPAIGN

Candidate for Vice President Compares Periods of Republican and Democratic Rule.

Senator Charles W. Fairbanks, of Indiana, delivered his first formal speech of the campaign at White River Junction, Vt., August 29. People from all parts of western New Hampshire were present. The demonstration was arranged as a welcome from the people of Windsor county to the Indiana senator, whose father was born within its limits.

Chairman Alfred E. Watson, of the state committee, and Lieut. Gov. Z. S. Stanton, at the head of a delegation representing all parts of the state, welcomed Senator Fairbanks to the state. After luncheon in the state building the party was driven to the high school grounds, where hundreds of persons had assembled. At the conclusion of a brief address by Senator Proctor the candidate for vice president was presented. He was given an enthusiastic reception.

Address of Mr. Fairbanks.

Following is the address of Senator Fairbanks:

We have entered upon a campaign of far-reaching moment. We are to determine the policies that shall be in force and the administration which shall be in power for four years to come. The candidates and platforms are before the people. The records of the parties are a part of our familiar history, and we should be able to judge what policies and what administration will best advance our welfare. We should consider the questions before us and determine them in the light of the fireside without passion and without prejudice.

One of the uppermost questions is: Does the administration of President Roosevelt merit a vote of confidence? This question confronts us at the very threshold of the debate. The president took up the duties of his office at a serious moment in the history of the republic. He assumed his great respon-

SENATOR CHARLES W. FAIRBANKS.

sibilities with a due appreciation of their gravity, and gave assurance to his countrymen that he would carry out the policies of his predecessors. The people were familiar with them. They were the policies of the republican party. They had brought the country immeasurable prosperity, and they naturally desired their continuance.

Record of Twelve Years.

Let us see what republican administration and republican policies have accomplished. We may compare democratic and republican administrations with profit. Fortunately we have before us the records of both parties during the last 12 years. Twelve years ago the country was in the enjoyment of an unusual degree of prosperity. There was work to be had on every hand, and at good wages. The farmer received remunerative prices for the products of the farm. Benjamin Harrison was then president—one of the ablest men who has held the chief executive's office. The public business was well transacted. The McKinley tariff law was in full operation.

In the face of all this the democratic party denounced republican prosperity "as a fraud and robbery of the great majority of the people for the benefit of the few." It was declared to be unconstitutional, and the repeal of the McKinley law was demanded. The people in an unguarded moment in the exercise of their sovereign rights, voted out of power the republican administration and expressed their judgment in favor of a repeal of the McKinley law. Democratic promise was accepted in place of republican fulfillment.

Hard Times Follow.

After the election Gen. Harrison, in submitting his annual message to congress, directed attention to the prosperity prevailing throughout the country. The defeat of the republican party and the consequent change in the economic policy of the government started a sharp reaction in the industrial world. It is impossible to overthrow great economic policies without changing industrial and commercial conditions. It could not be done in 1892, and it cannot be successfully accomplished to-day.

The four years succeeding Gen. Harrison's defeat will not soon be forgotten. They stand in sharp contrast with the years of republican administration both before and after. They were four years of arrested development, of panic and distress without a parallel in American history. Field, factory and mine suffered alike. Vast armies of unemployed marched through the country, hopelessly seeking an opportunity to work, regardless alike of either the number of hours or the rate of wage. To many from foreign shores who have since then sought our hospitality, and to many of the young men of our own country who for the first time will exercise the highest privilege of an American freeman, this may seem an overdrawn picture. There are many of our countrymen who will confirm it with testimony gathered in their own hard experience.

Return to Republican Rule.

In 1896 the American people resolved to return to republican administration and to republican policies. We came into power pledged to overthrow the democratic tariff law and to enact in lieu of it a genuine protective measure. President McKinley, realizing full well the public needs, convened congress as speedily as possible after his inauguration to carry out our pledge. Months were spent in an exhaustive consideration of the entire subject, and in due time we put upon the statute books the Dingley law. The republican administration and this measure gave confidence to the country. Fires were started in the great industrial centers. A profitable market was created for the products of the farms of Vermont, New Hampshire and elsewhere. Prosperity returned and spread her blessings among all sections and all peoples within the ample limits of the republic.

Three years ago our great and beloved leader in the national contests of 1896 and 1900 fell at his post of duty. His successor has administered our national affairs since then with conspicuous ability. He has been an earnest student of the country's needs. He has been conscientious and untiring in the discharge of his great responsibilities. He has been inspired by but one purpose, and that has been to do well the work committed to his hands.

Roosevelt Has Succeeded.

Judged by any test we may apply, the administration of President Roosevelt has been eminently successful. The last three years have been years of exceptional prosperity. Business has been active in the market-places. Industry has flourished, and the farmer has prospered in an unusual degree. Prosperity has not been confined to limited areas, but has extended throughout the country. It has not been restricted to a few, but has been enjoyed by the many. Domestic trade has expanded to proportions never before attained, and our exports have reached the highest figures in our history. In short, the last three years have been years of commercial growth, of domestic peace and of expanding power.

As in 1892, the democratic party now denounces "protection as a robbery of the many to enhance the few," and pledges itself to overthrow the Dingley law through a revision and reduction of the tariff. What will be the result of such a policy? We will find a most conclusive answer in the four years of the last democratic administration. Let the American people take the democratic platform and the record of the last democratic administration in one hand and the republican platform and the record of the republican administration during the last three years in the other, and pronounce their judgment.

LOST HIS OFFICE

EX-SHERIFF OF TELLER COUNTY, COL., SUES FOR DAMAGES.

Wants His Successor Ousted—Clergyman and Two Other Residents of Cripple Creek Jailed on a Charge of Conspiracy.

Cripple Creek, Col., Aug. 31.—The first of the promised suits by officers of Teller county who were deprived of their offices was filed in the district court yesterday. Henry M. Robertson, former sheriff, petitions the court to oust Edward Bell from the office of sheriff and asks for $5,000 damages against him for usurping the office.

In the complaint Robertson recites the events that occurred on June 6 last, when he was compelled to resign. Soon after the Independence explosion, he declares, he was induced to enter Armory hall, where a large number of mine owners were congregated.

The doors were immediately locked and a guard placed at them. Then he was informed that unless he resigned as sheriff he would be killed. He demurred, and a rope with a noose was shown him and he was informed that unless he resigned quickly the doors of the hall would be opened and the mob permitted to enter and lynch him. He resigned in order to save his life.

Information was filed yesterday before District Judge Lewis charging Rev. T. S. Leland, L. A. Jenks and Arthur Parker with a conspiracy to murder Sheriff Bell and Deputy Sheriff Underwood. These cases are based on the shooting from Mr. Leland's house on Sunday night when Sheriff Bell demanded admittance. Bail was fixed at $2,500 and the arrested men are still in jail.

E. S. Holden, ex-secretary of Engineers' union No. 75, has been brutally beaten by four masked men while on his way to the Vindicator mine where he works. He was opposed to the strike in this district and became identified with the non-union men, taking out a mine owners' card last December.

A SERIES OF MURDERS.

A Connecticut Farmer Is Alleged to Have Killed Four People—He is Arrested.

Colchester, Conn., Aug. 31.—That Gershon B. Marx, now held in the Norwich county jail, is the perpetrator of a series of cold blooded murders probably without precedent in the history of Connecticut, is the belief of the state officials who yesterday began a search for bodies on the Marx farm. Four murders and an attempt to poison another man can, it is believed by these officials, be traced to Marx.

The bodies of two of Marx's victims, Joe Pavol and Joe Jalm, have been found. Marx is awaiting trial charged with the murder of Pavol, his wife being held as a witness for the state. The two bodies for which the search was begun Tuesday are those of an 18-year-old boy and a Hebrew peddler.

The boy, who was known as Harry, arrived in New York from Russia three years ago and came here to work for Marx. He worked on the farm for about six months and then suddenly disappeared.

The Hebrew peddler went to the Marx home one evening about two years ago and he has not been seen alive since, so far as known.

A Polander known as "Joe" on Tuesday made a statement to Sheriff Jackson in which he accused Marx of attempting to end his life with poisoned whisky.

The motive for the crime can only be traced to an insane desire on the part of Marx to escape paying money to persons to whom he was indebted.

Marx always slept with his hired man, his wife and four children sleeping in an adjoining room. It is said that he drugged his victims when they pressed him for their wages, and then crushed their heads with an ax.

Riot and Murder.

Pittsburg, Aug. 31.—The crusade carried on by the Allegheny County Sabbath Observance association for the past three weeks to enforce the blue laws of 1794 resulted in riot and murder in Allegheny last night. The man who was killed was Harry D. Knox, driver of an ice wagon. He was shot by P. T. Gamble, a detective employed by the association, who was attacked by a mob after he (Gamble) had had a hearing in an alderman's office on a charge of perjury.

Dedicated a Soldiers' Monument.

Gainesville, Va., Aug. 31.—Troops of the United States army, Gen. Corbin in command, and Gen. Bell, commanding the Seventh cavalry, participated in the dedication of a monument to the memory of the Confederate dead of the first battle of Bull Run at Groveton yesterday. The principal address was delivered by Gov. Montague, of Virginia. Gen. Corbin spoke briefly.

Murdered His Son.

Pittsburg, Aug. 31.—Crazed by the effects of liquor, Frank Diebold, a German, aged 50 years, residing at Heidelberg, a mining town near here, murdered his 11-year-old son yesterday with a butcher knife while the child was sleeping.

Ex-Sultan Murad V. Dies.

Constantinople, Aug. 31.—Ex-Sultan Murad V. died Monday of diabetes. Murad V. was born in 1840 and ascended the throne after the murder of the Sultan Abdul Aziz in May, 1876. In July of that year Murad was placed under the regency of his brother, the present sultan, Abdul Hamid II., and on August 31 he was dethroned. This act was performed on the ground that he was insane. The real facts in the case, however, will probably never be known, but it has been claimed that Murad was a good deal more sane than his brother.

BOUNDARY CHANGES.

Contention Between the Two Southern States Brings Out Some Sensational Facts Regarding Topography of the Country.

The testimony taken for the United States supreme court in the case of the Louisiana-Mississippi boundary has proved as sensational as it was expected to be in the matter of the marvelous changes that have taken place in the topography of the country in recent years.

The question at issue is the coast line of Louisiana in 1812, because this fixes the water boundary of the state and determines whether the oyster reefs off the coast, valued at $10,000,000, belong to Louisianan or Mississippi. The old maps declare in favor of Louisiana. The contention of Mississippi is that these maps are incorrect, and that the country in dispute has always been the mixture of marsh, mud and water it is to-day. As the country was uninhabited and deemed valueless, the cartographers did not think it worth while to make a survey of the marsh and give petty details in which no one was interested. Therefore they made the entire section in dispute dry land in their maps.

Much testimony was heard from fisherman, yachtsmen, and others who had visited the country at different times in 25 years. They told of marvelous changes, some in a single night, of islands that had appeared and disappeared, and land that was a point one day and a bayou the following day. One witness, a leading merchant, of New Orleans, who cruised through this section in 1897, visited it again this year. Although there had been no storm during this period, he had found the face of the country so changed as to be scarcely recognizable. Round island, which he visited on his first trip, had disappeared, although still shown on all maps. There is a lighthouse still shown, but this has not been in existence for years, the island washing away piece by piece.

PUT OUT A FIRE WITH EGGS.

Lamp Starts Blaze, But the Improvised Extinguishers Save the Day.

The name of John Snedecor, of Bay Shore, L. I., will go down to posterity as the discoverer of an egg fire extinguisher. He left his three little children in the dining-room while he went to the grocery before supper. There was a big lamp on the table.

When Snedecor got home the lamp lay on the floor in the midst of a pool of blazing oil. Huddled against the wall at the back of the room, unable to get past the blaze, were the three children.

In a paper bag Snedecor was carrying a dozen and a half of eggs he had just bought. Three at a time he hurled them on the floor along the edge of the flame, meantime yelling for other members of the family to souse a blanket in a pail of water and bring it to him quickly.

The albumen, phosphates, nitrates and water in the bursting eggs seemed to retard the flames. They were almost egged out when the wet blanket arrived, and Snedecor soon quenched the last of the blaze.

WILHELMINA IN AN AUTO.

Holland's Queen Pleased with First Drive in a "Buzz Wagon" and Intends to Have One.

Queen Wilhelmina, of Holland, has just made her first trip in an automobile and has expressed herself as delighted with the experience. Her majesty was accompanied on the trip by the prince consort. She wore a long white cloak, while the prince was gorgeous in a showy military uniform.

The tour was personally conducted by M. Verwey, the owner of the vehicle in which the queen and her consort rode. He was at the wheel all of the time.

Three other machines followed. They were driven along at the top speed of 40 miles an hour where the roads would permit it, and the queen declared that it was the most exhilarating sport she had ever known. Her majesty says she means to have a touring machine.

The body of an 11-year-old daughter of Rev. Elijah Mott, who died five years ago at Alsey, Scott county, Ill., was exhumed the other day for removal and found to be in a state of perfect preservation, though heavy as stone. The body retained its natural form and color.

LEARNING THINGS

We Are All in the Apprentice Class.

When a simple change of diet brings back health and happiness the story is briefly told. A lady of Springfield, Ill., says: "After being afflicted for years with nervousness and heart trouble, I received a shock four years ago that left me in such a condition that my life was despaired of. I could get no relief from doctors nor from the numberless heart and nerve medicines I tried because I didn't know that the coffee was daily putting me back more than the Drs. could put me ahead.

"Finally at the request of a friend I left off coffee and began the use of Postum and against my convictions I gradually improved in health until for the past 6 or 8 months I have been entirely free from nervousness and those terrible sinking, weakening spells of heart trouble.

"My troubles all came from the use of coffee which I drank from childhood and yet they disappeared when I quit coffee and took up the use of Postum." Name given by Postum Co., Battle Creek, Mich.

Many people marvel at the effects of leaving off coffee and drinking Postum but there is nothing marvelous about it—only common sense.

Coffee is a destroyer—Postum is a rebuilder. That's the reason.

Filipinos at St. Louis World's Fair

Wonderful Music Rendered Daily by Islanders on Plaza of Philippine Building.

THERE are some people who still assert that the United States obtained nothing, through the annexation of the Philippines, but a lot of naked savages. In spite of the government's display at the World's Fair, which shows, in addition to the four wild tribes, the refined Visayans with their beautiful fabrics and their delicate embroideries, the loyal brown soldiers of Uncle Sam and the cultured commissioners and officials, there are some purblind individuals who refuse to see that the Filipino is anything but a nuisance and a menace to our country.

That he could be capable of civilization and uplifting seems utterly ridiculous to—those who have studied him? No, to the class who dare not visit the Philippine reservation at the World's Fair for fear of being convinced against their will. That a great many of the natives of the islands could already be cultured and refined would be set down as utterly preposterous by this class.

The soreheads need not be bound and carried by violence across the facsimile Bridge of Spain, through the Walled City to the heart of the most wonderful section of the entire exposition. They should only be enticed to listen for an hour to the playing of the Constabulary band. No man with an ounce of appreciation in his soul could hear that band without being convinced that the 81 men who compose its membership are far above the ordinary in both intelligence and sentiment. A nation or a race may be judged by its music. A natural feeling for rhythm and harmony is not an attribute of a chaotic or unbalanced mind. It is discord that leads the way to senseless vandalism and causeless rebellion.

In behalf of the Filipino it must be said that he is a natural musician. Even the savage head-hunters, in their peculiar tribal dances, manifest a remarkable feeling for rhythm. There is none of the Indian's wild noise and broken time in their beating of brass tomtoms and their somewhat monotonous singing. They possess the musical instinct that, with time and training, may be developed into just what the members of the tw Philippine bands already possess.

The Scout band is an exceptionally good military band, such as we have heard before. The Constabulary band is in a class by itself. It is not to be compared with any of the other exposition bands. Its concerts are held daily in the large bandstand in the Philippine plaza, and those who have heard one concert will gladly forsake the most interesting exhibit and walk the entire distance from the heart of the grounds to the reservation in order to hear another.

The men who compose the constabulary and who have done so much to promote law and order in the islands are to be distinguished from the natives in the regular army by their uniforms. The military Filipino wears the blue of the American soldier. The members of the civil police force wear the khaki. It is these little men in yellow attire who have come to the World's Fair to show Americans what we, as a nation, have really acquired as an accidental result of Admiral Dewey's spectacular victory.

The members of the Constabulary band were all finished musicians before Lieut. Loving, their leader, took them in hand. Each one was an artist in his own line, and all of them had seen service in the military bands of the Spanish regime. However, there was a tremendous task for the bandmaster. The men possessed execution without idea. They could read notes faultlessly, and could keep perfect time; but that is only a small part of concerted playing.

Naturally quick to catch new ideas, they soon grasped the meaning of the "attack," on which the effect of a band's work so largely depends. Then they learned all the mysteries of shading, from the most delicate tone to the most powerful crescendo, and it is in this that their playing is so marvelous. In the tender, sympathetic passages of a selection the tone is subdued to the most exquisite murmur, from which it rises, without a crash and without a blare, sweeping majestically upward and onward, until the enraptured listener is engulfed in a mighty billow of sound. Nothing could be more inspiring than the burst of melody in such a climax as that which occurs in the sextette of Lucia, and no band ever handled its climaxes better.

In the most powerful tone, there is not the slightest suggestion of brassiness. It is all liquid music. This is due almost wholly to the instrumentation, which is absolutely faultless. More than half the instruments are reeds, and instead of the large number of saxaphones, the instrumentation includes four sarrusaphones and two sousaphones. Moreover, the clarinets are not used merely for accompaniment, but actually carry the second voice.

The music produced is not simply that of a brass band, but is varied for effect to resemble strings, human voices and even the pipe organ. Among the players there are several excellent violinists, and the personnel of the band is sometimes rearranged into an orchestra of 40 men and also into a guitar glee club.

The leader, Lieut. Loving, is a native of St. Paul, and a graduate of the New England conservatory of music. To his genius and devotion much of the success of the Constabulary band is due.

Would that every American citizen might listen to one of his matchless programmes, drink in all the harmony and all the splendor of the best band in the United States, yes, and stay to the close. The close is the most impressive part of the concert. No one could listen to the playing of "The Star Spangled Banner" by that band of Filipinos, the pavilion surrounded by other Filipinos, their hats over their hearts and their heads bowed, and doubt that they are loyally American.

BANANA A PROMINENT FOOD

Long Regarded as a Luxury by Natives of Tropics—Bread and Coffee Facts.

Long regarded only as luxury for children or proper food for the dark-skinned natives of the tropics, the banana has advanced to a place of prominence as a great food product. The United States and other great nations having colonies in the tropics have been investigating the food value of the banana and the results obtained are so satisfactory that the nutritious banana is taking its place as a staple food among all civilized nations.

To overcome all objections, the banana has been especially dried and prepared for food by making into a fine flour out of which bread is made, and other process turns the soft mushy banana into a wholesome coffee.

The St. Louis Exposition is being used by the manufacturers of banana bread and banana coffee to introduce this new food to the world. Now this nutritious bread and coffee are served daily to visitors in the Palace of Agriculture, as one of the many object lessons in food at the World's Fair.

Many Varieties of Potatoes.

Three hundred and fifty varieties of Irish potatoes, big and little, are exhibited in the New York section of the Palace of Agriculture at the World's Fair. The specimens are the result of cross breeding of standard types.

Features in Food and Drink.

The World's Fair is full of new things, new features and interesting experiments in the way of food and drink. Prominent among the new beverages introduced at the Exposition are banana coffee and prune coffee.

At one of the California county exhibits in the Palace of Agriculture the prune coffee is furnished by the county, to teach the public the value of this experiment as a pleasant beverage.

The banana coffee is served in the same building, but at a different exhibit, the purpose being to show the wonderful food value of the banana.

COFFEE DISPLAY EXTENSIVE

South and Central America Exploit Their Great Product—Porto Rico Represented.

The value of the St. Louis Exposition as an advertising institution and school of instruction is fully appreciated by the great coffee growing countries of South and Central America. These countries are showing their coffees to the thousands of World's Fair visitors and creating new demands for the better varieties produced, which now find a market at home or in England and Germany.

The countries claim as great merit for their high grade coffees as is possessed by the famous Mocha and Java, and they seek to give the public an object lesson in the use of coffee. Brazil serves coffee every afternoon to all visitors at the Brazil building, free of charge, in order that they may sample a better grade of Rio.

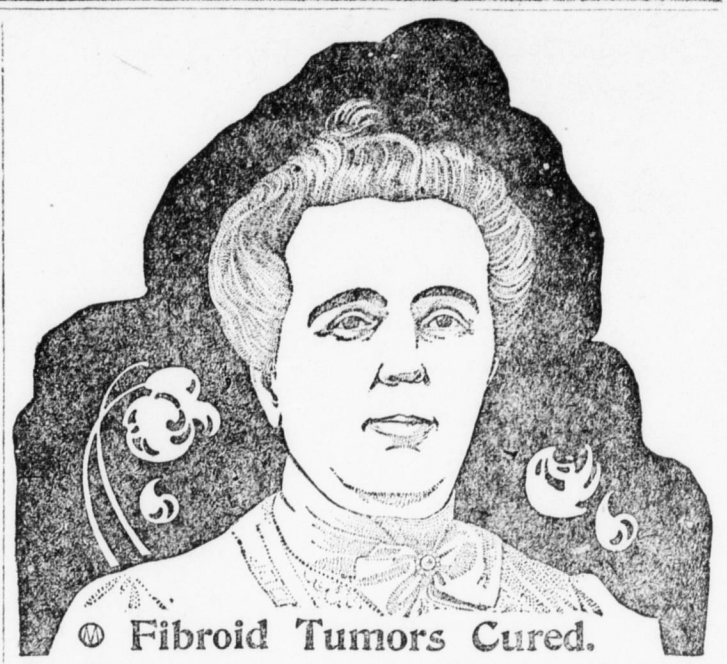
Porto Rico also has an extensive coffee exhibit, with the hope of promoting a larger trade with its new mother country.

Pygmies Discard Tents for Huts

The Pygmies from Africa at the World's Fair became tired of living in the tent provided for them and have built themselves small huts of saplings, covered with grass and rushes. In order to give the huts the proper dimensions, a novel system of measurement was employed. The corner poles were stuck in the ground and the architect then lay down on his stomach, stretching out both arms to see if the hut would be large enough.

Organ Recitals Daily.

Five regular recitals are now given each day upon the large mechanical organ in the splendid French section of the Palace of Liberal Arts at the World's Fair. The recitals begin at 10:30 and 11:30 o'clock a. m. and at 2:30, 3:30 and five p. m., and consist of selections from well-known operas and other classical and popular music. The space about the organ is always filled with people. In addition to being a very perfect instrument from a musical standpoint, it is elaborately decorated.



© Fibroid Tumors Cured.

A distressing case of Fibroid Tumor, which baffled the skill of Boston doctors. Mrs. Hayes, of Boston, Mass., in the following letter tells how she was cured, after everything else failed, by Lydia E. Pinkham's Vegetable Compound.

Mrs. Hayes' First Letter Appealing to Mrs. Pinkham for Help:

"DEAR MRS. PINKHAM:—I have been under Boston doctors' treatment for a long time without any relief. They tell me I have a fibroid tumor. I cannot sit down without great pain, and the soreness extends up my spine. I have bearing-down pains both back and front. My abdomen is swollen, and I have had flowing spells for three years. My appetite is not good. I cannot walk or be on my feet for any length of time.

"The symptoms of Fibroid Tumor given in your little book accurately describe my case, so I write to you for advice."—(Signed) Mrs. E. F. HAYES, 252 Dudley St., (Roxbury) Boston, Mass.

Note the result of Mrs. Pinkham's advice—although she advised Mrs. Hayes, of Boston, to take her medicine—which she knew would help her—her letter contained a mass of additional instructions as to treatment, all of which helped to bring about the happy result.

"DEAR MRS. PINKHAM:—Sometime ago I wrote to you describing my symptoms and asked your advice. You replied, and I followed all your directions carefully, and to-day I am a well woman.

"The use of **Lydia E. Pinkham's Vegetable Compound** entirely expelled the tumor and strengthened my whole system. I can walk miles now.

"**Lydia E. Pinkham's Vegetable Compound** is worth five dollars a drop. I advise all women who are afflicted with tumors or female trouble of any kind to give it a faithful trial."—(Signed) MRS. E. F. HAYES, 252 Dudley St., (Roxbury) Boston, Mass.

Mountains of gold could not purchase such testimony—or take the place of the health and happiness which Lydia E. Pinkham's Vegetable Compound brought to Mrs. Hayes.

Such testimony should be accepted by all women as convincing evidence that **Lydia E. Pinkham's Vegetable Compound** stands without a peer as a remedy for all the distressing ills of women; all ovarian troubles; tumors; inflammations; ulceration, falling and displacements of the womb; backache; irregular, suppressed or painful menstruation. Surely the volume and character of the testimonial letters we are daily printing in the newspapers can leave no room for doubt.

Mrs. Hayes at her above address will gladly answer any letters which sick women may write for fuller information about her illness. Her gratitude to Mrs. Pinkham and **Lydia E. Pinkham's Vegetable Compound** is so genuine and heartfelt that she thinks no trouble is too great for her to take in return for her health and happiness.

Truly is it said that it is **Lydia E. Pinkham's Vegetable Compound** that is curing so many women, and no other medicine; don't forget this when some druggist wants to sell you something else.

$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.

is of the greatest assistance to nature in bringing about the change which takes place, without disarranging the natural functions of the system. It is a strengthening tonic. It will keep the roses in a girl's cheeks and prevent that tendency to decline which so often endangers her life at this critical point in development.

This Herb Tea is likewise of corresponding value and assistance to matrons and mothers at the end of this period. Its use will at this time prevent endless pain and worry. A woman will enter the evening of life with scarcely the knowledge that the change has occurred. Many are the thankful women who know the value of Aunt Dinah's Old Virginia Herb Tea and are grateful for the benefits derived from its use.

WILL BLAZE THE WAY

Republican Clubmen Leading Fight For Roosevelt and Fairbanks.

A NEW SONG FOR THE CAMPAIGN

Chairman Penrose Procures Speakers of National Prominence For the State League's Convention at Reading.

[Special Correspondence.]

Reading, Sept. 6.

Pennsyl-Pennsyl-Pennsyl-vania!
Pennsyl-Pennsyl-Pennsyl-vania!
Pennsyl-Pennsyl-Pennsyl-vania!
She's going to blaze the way!
For Teddy and Fairbanks, too!
(To air of "Glory! Glory! Hallelujah!")

The above campaign song will be sung in every section of the commonwealth after the convention of the State League of Republican Clubs, which is to be held in Reading on September 21, 22 and 23.

Already enthusiastic Republican clubmen who are preparing to attend the convention are singing this song at home, and they expect to join in a mighty chorus when they get together in the convention from every county in the state and formally open the presidential election in Pennsylvania. The convention of the clubmen this year promises to be the greatest in the history of the league, and much of the credit for the success of the convention will be due to the active co-operation of Chairman Penrose and Secretary Andrews, of the Republican state committee, who have given every assistance possible to President John R. Wiggins and Secretary John Kelley and the other officers of the league and the members of the local committee of arrangements.

Senator Penrose made a personal appeal to Chairman Cortelyou, of the Republican national committee, and Chairman Babcock, of the Republican congressional committee, to send speakers of national reputation to the league's convention, and they have promised to comply with his request.

As the result of Senator Penrose's visit to New York, Candidate for Vice President Charles W. Fairbanks, of Indiana, and Senator Joseph B. Foraker, of Ohio, are among others who have been assigned to address a mass meeting under the auspices of the State League, which will be held in the Reading Academy of Music on September 21. It is expected that there will be a number of other distinguished Republicans from other states to address the meeting in addition to many of the leaders of the Republican organization of Pennsylvania. Senator Penrose, Senator-elect Knox, Governor Pennypacker, Attorney General Carson and a host of others have been invited to be present. Every Republican member of congress from Pennsylvania is expected to attend, so that the gathering will be a notable one.

There will be music and fireworks galore and special excursions to Mount Penn and other points of attraction in and about Reading will be arranged for the entertainment of the delegates, alternates and other visitors to the convention. Secretary Kelley estimates that at least 250 clubs will be represented, and that the number of visitors who will accompany the delegates will be the largest on record.

The convention of the club league will be the inauguration of a brilliant series of Republican mass meetings to be held under the auspices of the Republican state committee. Senator-elect Philander C. Knox, who has just returned from a trip abroad, had a conference with Chairman Penrose last week and agreed to speak at a mass meeting to be held in the Academy of Music in Philadelphia, under the direction of the Manufacturers' Club of that city. This will be one of the largest demonstrations that will be held in the state during the campaign. It is proposed to have a tremendous rally of employes of the various manufacturing plants in the Quaker City that have prospered under the protective tariff and which would be jeopardized in the event of the election of a Democratic president and of a Democratic congress favorable to the Democratic idea of free trade.

Capital and labor will figure conspicuously in this meeting, which is likely to be one of the most unique features of the presidential contest.

A large delegation of active Republicans from Allegheny county were in conference with Chairman Penrose last week relative to a series of monster mass meetings which they propose to hold in Pittsburg and vicinity. They submitted a list of orators they desired, which among others included Candidate Fairbanks, Speaker "Joe" Cannon, Senators Penrose and Knox, Governor Pennypacker, Attorney General Hampton L. Carson, Charles Emory Smith and General Thomas J. Stewart.

County Chairman Ford and City Chairman Leslie informed Chairman Penrose that Allegheny county will give Roosevelt and Fairbanks the largest majority that has ever been given to any Republican national ticket. They informed him that the party is united in Allegheny, and that the greatest enthusiasm prevails among the rank and file of the party organization.

Several of the active spirits of the State League of Clubs were in Reading during the last week. They reported that the condition of the party organization in their respective localities is very satisfactory, and that Republicans generally intend to give loyal and cordial support to the entire Republican ticket.

A Power For Good.

The pills that are potent in their action and pleasant in effect are DeWitt's Little Early Risers. W. S. Philpot, of Albany, Ga., says: "During a bilious attack I took one. Small as it was it did me more good than calomel, blue mass or any other pill I ever took and at the same time the effect was pleasant. Little Early Risers are certainly an ideal pill." Sold by R. C. Peculiarity About Insurance.

When insurance companies grant insurance on life, they are particular to have the person examined by a doctor to ascertain if he is in sound health. They are most particular about the analysis of the urine for the diseases of the kidneys are the most fatal and so many people have diseaaed kidneys without knowing it. If there are any symptoms they are usually (even by doctors) attributed to some other cause. Thompson's Barosma is the safest remedy to take for it will do good whether you have kidney trouble or not. Thompson's Barosma gives rest to the nerves. For sale by R. C. Dodson.

If you try to pick your own company you will be lonesome.

A Terrible Case of Eczema.

San-Cura Ointment has no equal for Eczema. One year ago my face and neck were one mass of raw sores; the doctor said I had Eczema and Erysipelas. I had not slept for weeks, with itching, burning pain. It was terrible! The first night I used San-Cura Ointment, I slept all night for the first time in weeks, and in a short time was completely cured. Chas. Fay, Townsville, Pa. Druggists, 25c and 50c. For sale by R. C. Dodson.

Trying to keep up appearance has pulled many a man down.

A Great Discovery.

Judging from the number of permanent cures that it has made Thompson's Barosma, Kidney and Liver Cure is the greatest discovery in medical science. Thompson's Barosma has made remarkable cures in kidney, liver, bladder, stomach and blood diseases, also palpitation of the heart and nervousness. It is purely vegetable and perfectly harmless. Just the remedy for young and old. Druggists. $1 per bottle. Six for $5. For sale by R. C. Dodson.
